

Ed Elliott

YEAR OF CALL: 2000

Ed offers robust, practical and remedy-based advice and representation. Level-headed and focused on ensuring a good outcome, Ed is always candid with clients about their cases and prospects of success while applying his experience and expertise to fight their corner in court.

Ed is qualified to accept instructions directly from members of the public and is a trained mediator. He represents clients through the Bar's pro bono charity, Advocate, and sits in the Family and County Court as a Deputy District Judge.

During the first seven years of his career, Ed had a mixed practice involving criminal law, housing and personal bankruptcy as well as family work. Although the Bar is becoming increasingly specialised, Ed has tried to use this experience to maintain a working knowledge of as many areas of law as possible.

Ed believes that *"whilst clients seek expert advice and representation, their problems do not always neatly fit into one legal pigeonhole. Any children lawyer needs a working knowledge of criminal, housing and immigration law. Enabling clients to understand, address and overcome such problems will give rise to better outcomes in children cases. Likewise, any matrimonial finance lawyer needs to understand welfare benefits, tax and insolvency. Reaching acceptable and sustainable solutions in ancillary relief cases particularly where there are limited assets is all about understanding what is possible in practical terms."*

Ed Elliott is a specialist family lawyer with an extensive knowledge of the law who strives to obtain the best outcome for clients in each and every case.

CHILDREN LAW

Care proceedings

Ed acts for all parties in care proceedings, believing that the best advocates understand cases from all perspectives. He has frequently dealt with cases involving serious allegations of inflicted injuries from fractures to head injuries to sexual abuse.

Private law matters

Ed has over twenty years' experience of "private law" (disputes between parents). He is an experienced negotiator, seeking to resolve cases wherever possible as best solutions to problems are those that are agreed rather than being imposed by the court. Equally, he is a tenacious and determined advocate who has been involved in intractable contact disputes and cases involving allegations of violence, abuse and, on occasion, factitious illness.

DIVORCE AND FAMILY FINANCES

Matrimonial Finance

Ed was a founder member of the Financial Remedies Team when he joined Garden Court Chambers in 2012 and its head until 2016. He undertakes all areas of matrimonial finance work including Trusts of Land Act, relief following foreign divorce, applications under schedule 1 of the Children Act 1989 (unmarried parents), and proceedings against the Child Maintenance Service (formerly the CSA).

He represents clients in complex, high net-worth cases involving other areas of law such as mortgage repossession and bankruptcy. He has also been asked to prepare expert reports in Confiscation Proceedings in the Crown Court
