

HARMIT KAMBO
Campaigns Director

DR ILIA SIATITSA
Acting Legal Director

CONTEXT

1. **Dragnet of highly sophisticated tech surveillance tools - targeting devices, and our faces and bodies.**
2. **How much surveillance? What types? When? Against who? We don't know - not knowing is the problem.**
3. **Lack of transparency and regulation.**
4. **A protest is now a panopticon.**
5. **We want to inform and raise awareness about protest surveillance.**

SO WHAT IS 'FREE TO PROTEST' (F2P)?

1. THE 'F2P' GUIDE

- Provides info about surveillance tools that threaten freedom to protest, and self-defence strategies – it's not advice.
- <https://privacyinternational.org/campaigns/free-protest>

2. ADVOCACY PRINCIPLES (IN PROGRESS)

- Advocacy for legal safeguards and regulatory framework in relation to state surveillance of protests

1. ABOUT THE 'F2P' GUIDE

- A 'modular' set of short guides.
- Aimed at protestors and protest organisers.
- It's a guide to police capabilities, not a guide to the law.
- It's not a surveillance 'bust card' – not providing advice.
- UK-focused.
- Currently working with international partners on adaptations (e.g. Colombia, Palestine, Mexico, Argentina, Paraguay).

STRUCTURE OF THE F2P GUIDE

A guide to police surveillance of your devices
